## NOTES:

- POLST Physician Orders for Life-Sustaining Treatment
- A metal "medic alert" bracelet qualifies as a DNR order for all EMS providers
- A patient's guardian may override the DNR order. For these situations, begin resuscitation efforts and consult medical control for further orders.
- EMS providers may not accept verbal orders from a private physician who is not physically
  present at the scene. Input from the private physician is welcomed, but should be
  communicated directly to medical control. The EMS team should facilitate the communication
  between those physicians.
- An on-scene physician accepting responsibility for the care of the patient must write, sign and date a "Do-Not-Resuscitate" order on the EMS run report.
- Modification of or withholding medical care based on a "Living Will" or "Medical/Health Care
  Power of Attorney" or other document must be approved by medical control. Appropriate
  medical care will be provided to the patient while a direct order from medical control is obtained.
